# CONCRETE JUNGLE

---

shown on front: **AT3R 12x24** Titanium (other format: for color reference only)

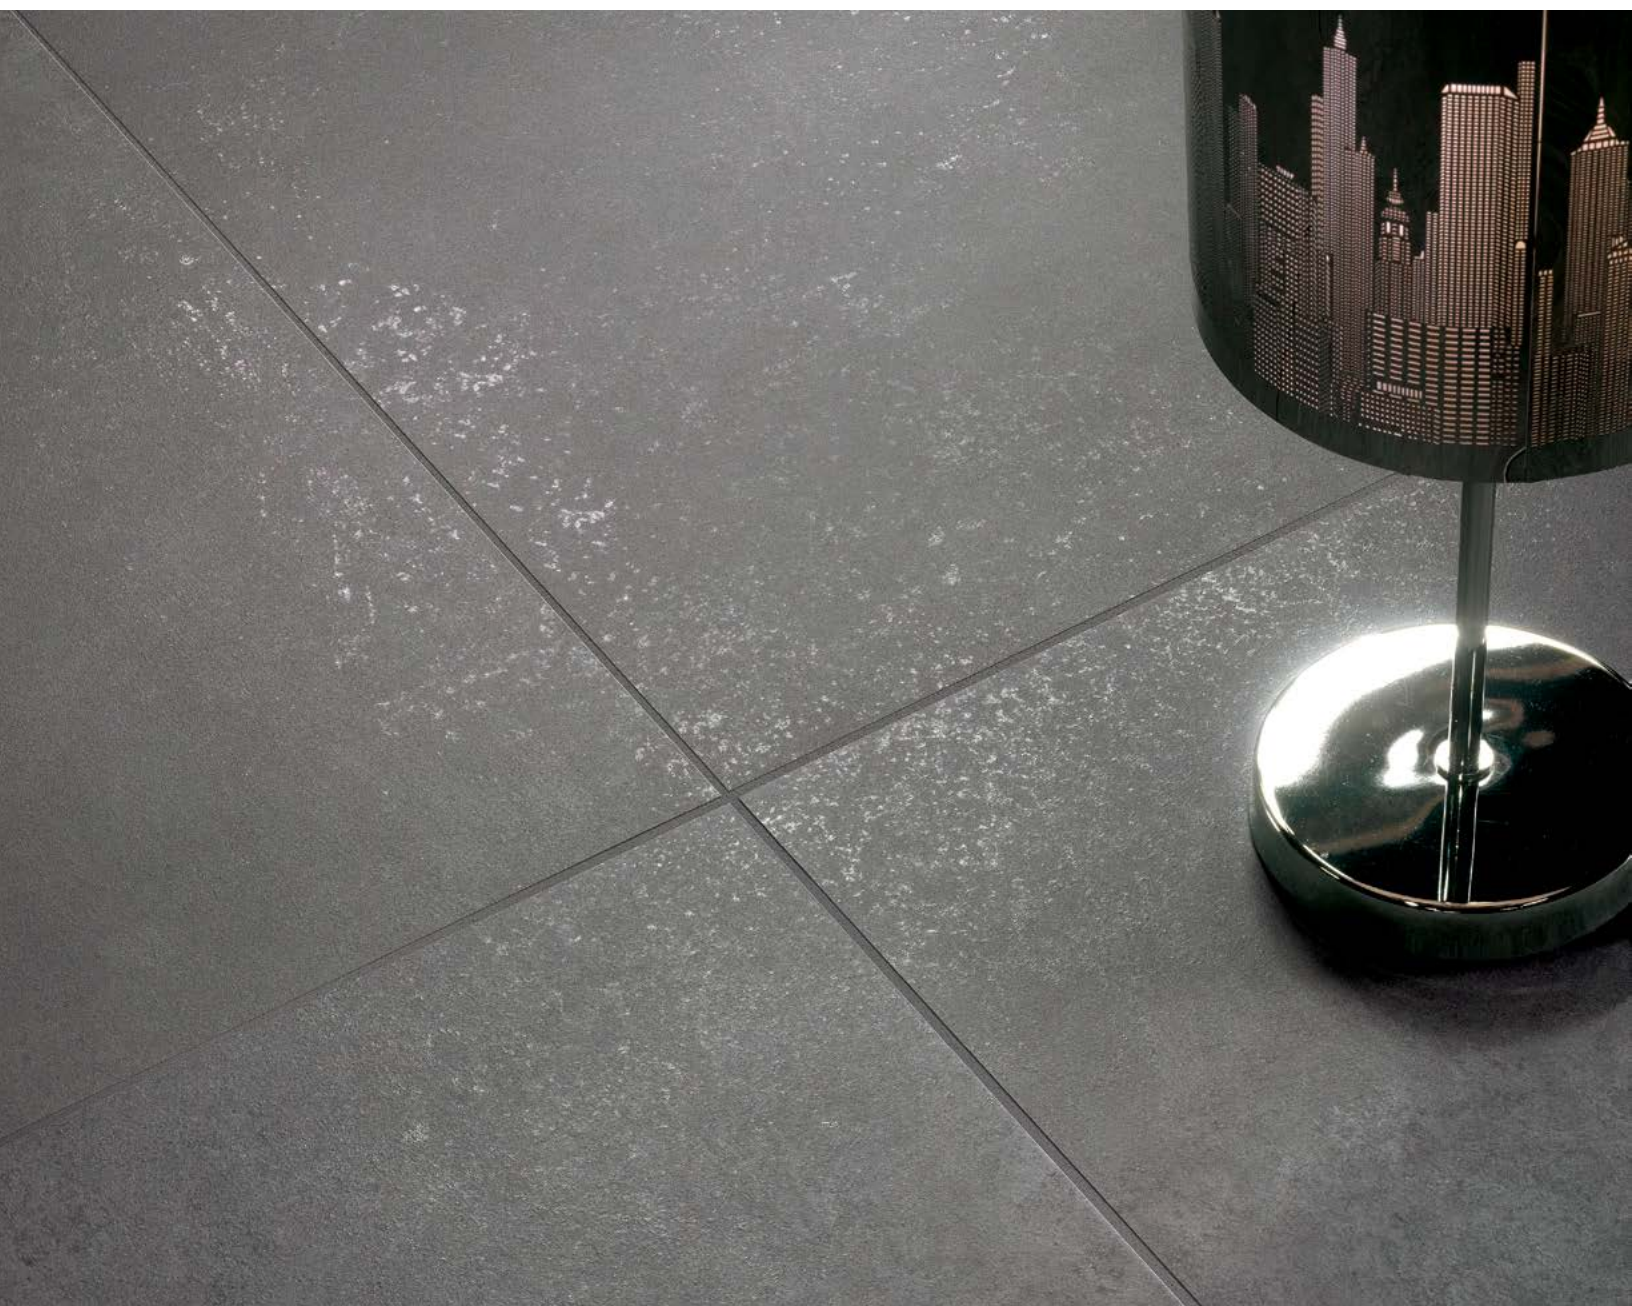

Inspired by the grit of urban landscapes, Aventis exemplifies contemporary design. A concrete-look with a six-color palette of striking beiges, greys, and olives, it propels a spirit of minimalism into focus. Understated shade variations deliver a monochromatic tone while a smooth, yet tactile surface allows the slightest shimmer of reflection. This sleek collection creates lasting sophistication for any high-traffic space.

With large scale commercial or contemporary residential installations in mind, Aventis color body floor and wall tile is engineered for optimal durability and performs to the highest

industrial standards of certified porcelain. A rectified 12x24 field tile is complemented by a 25-piece mosaic and 3x12 bullnose available in all colors.

Aventis color body porcelain tile is appropriate for most residential and commercial interior, dry and wet applications including walls, countertops, backsplashes, and floors. Made in the USA at our Green Squared® certified Advanced Manufacturing Center in Lawrenceburg, KY, it includes pre-consumer recycled content and is GREENGUARD® and Porcelain Tile certified.
